- Git, GitHub

## SKILLS

- Teamwork
- Responsible
- Committed
- Problem Solving

## EDUCATION

- **Computer Engineering**

Universitat Politècnica de Catalunya  
2020-2025

## ABOUT ME

Junior web developer with a background in Computer Engineering and experience in academic and personal projects.

Passionate about creating functional and attractive web interfaces.

Proficient in HTML, CSS, JavaScript and React. Ability to work in a team, learn independently and solve problems.

## PERSONAL AND ACADEMIC PROJECTS

- **FINAL PROJECT DEGREE**

Website to analyze videos and detect the people that appear in them using a Machine Learning model.

The project uses django for both the backend and frontend as well as FastAPI for the auxiliary API that does the video inference.

- **PERSONAL WEB PORTFOLIO**

Responsive website to showcase personal projects and contact.

This website was developed with React, TypeScript, Vite and Tailwindcss
